ecoENERGY Programs for Buildings

Natural Resources Canada offers a number of products and services for commercial and institutional building owners, managers and other professionals:

ecoENERGY for Buildings and Houses

ecoaction.gc.ca/buildings

- Training and workshops
- Software and tools (e.g. EE4 and RETScreen®)
- Technical publications, case studies and newsletters
- Support for the update of the *Model National Energy Code for Buildings, 1997*
- Development of a building energy benchmarking system
- Validation of new building designs
- Information on financing options such as energy performance contracting
- Information on best practices such as commissioning and recommissioning
- Collaborations with stakeholder associations, utilities and service providers

ecoENERGY Retrofit – Small and Medium Organizations (Incentive)

ecoaction.gc.ca/retrofit

- Most commercial, institutional, multi-unit residential and non-federal government organizations with buildings of 20 000 m² or less can apply.
- Complete the application forms after performing a pre-project energy audit.
- You could receive \$10 per gigajoule of estimated annual energy savings, up to 25 percent of eligible project costs, to a maximum of \$50,000 per project or \$250,000 per organization.*

ecoENERGY for Renewable Heat (Incentive)

ecoaction.gc.ca/heat

- You could receive up to \$80,000 per solar air heating installation or up to \$400,000 per solar water heating installation.*
- The corporate maximum incentive for multiple installations is \$2 million.

* Do not incur costs until you receive a signed Contribution Agreement.
